

**ILE-DE-FRANCE, PROVENCE- ALPES-CÔTE-D’AZUR,  
PAYS DE LA LOIRE AND HAUTS-DE-FRANCE:  
THE TOP 4 REGIONS FOR SP95-E10 CONSUMPTION**

Paris, 8 February 2017 – By December 2016, SP95-E10 had taken the lead as the top-selling petrol in four regions: Ile-de-France, Provence-Alpes-Côte d’Azur, Pays de la Loire and Hauts-de-France. The latest figures show brisk growth in SP95-E10 sales, now boasting a 35% market share in the regions. It is expected to overtake sales of SP95 at some point in 2017, according to the Bioethanol Collective’s forecast.

**HALF OF SP95-E10 CONSUMPTION CONCENTRATED IN THESE FOUR REGIONS**

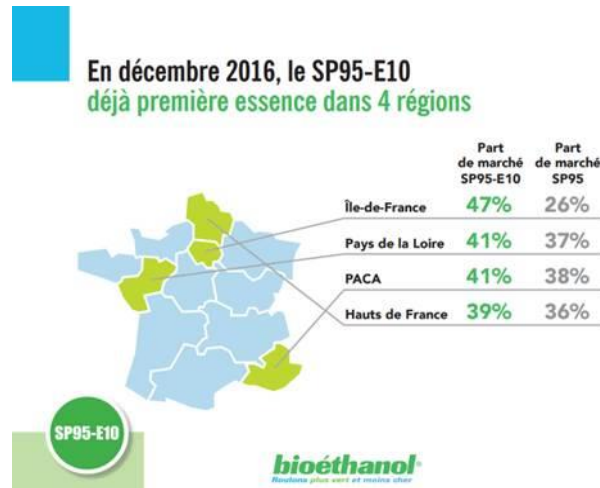

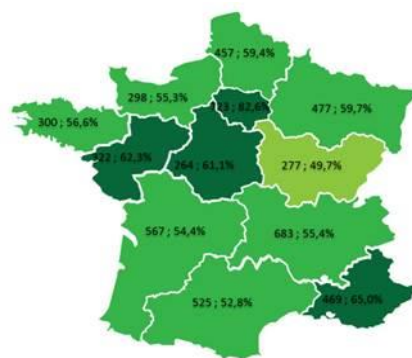

Figure: By December 2016, SP95-E10 had already taken the lead in four regions: SP95-E10 market share - SP95 market share

Four regions stand out in the annual figures, accounting for nearly half of all SP95-E10 purchased by December 2016. In Ile-de-France, sales of SP95-E10 accounted for 47% of the petrol market, easily outstripping SP95 at a mere 26%. Provence-Alpes-Côte d’Azur and Pays de la Loire tie in second place with SP95-E10 sales taking up 41% of the petrol market, ahead of SP95 with 38% and 37% respectively in these two regions. The fourth region in which SP95-E10 has outperformed SP95 is Hauts-de-France, where SP95-E10 boasts a 39% market share as opposed to 36% for SP95.

**SP95-E10 EVER MORE WIDELY AVAILABLE NATIONWIDE**

**Number of petrol stations selling SP95-E10 and breakdown per region**

In January 2017, over 5,500 petrol stations now sell SP95-E10. In Ile-de-France, 83% of petrol stations sell SP95-E10, i.e. 723. In Provence-Alpes-Côte d’Azur, Pays de la Loire and Hauts-de-France around 60% of petrol stations supply it.
